

Power Mn

RAPIDLY ASSIMILATED MANGANESE

5KG

25KG

Readily assimilated manganese supply

NUTRITIONAL COMPOSITION	%
Manganese (Mn), water-soluble	8

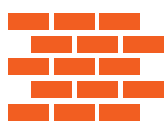

TECHNICAL SPECIFICATIONS	
S.W.	1.25
pH:	4

Improvement of fruit quality characteristics (size, colour, texture, and shelf life)

DOSAGE AND METHOD OF USE		Fertigation
CROPS	PHENOLOGICAL STAGE	DOSE kg/ha
ALL CROPS	Vegetative growth or when the first symptoms of deficiency appear	15-25

NOTES: ● In the most deficient soils and for crops that are more sensitive to manganese deficiency, it is recommended to repeat the application with MicroSync Mn every 15-25 days.

Laevorotatory plant amino acids and readily available energy for the plant

Increased nutrient efficiency: conveyance, modulated absorption and transport

ORGANIC FARMING
