

Universo (N35)

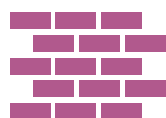

HUMIC-MINERAL NITROGENOUS FERTILIZER ACTIVATED WITH β^+

25KG

BIG BAGS

Laevorotatory plant amino acids and readily available energy for the plant

NUTRITIONAL COMPOSITION	%
Total nitrogen (N)	35
Organic nitrogen (N)	1.7
Ammonia nitrogen (N)	1.7
Urea nitrogen (N)	31.6
Humic and fulvic acids	5.5
Plant-based organic matter	16

DOSAGE AND METHOD OF USE		
CROPS	PHENOLOGICAL STAGE	DOSE kg/ha
Lawns and ornamental greenery	Top dress	100-250
Industrial crops and legumes	Post-emergence	100-250
Spring-summer cereals	Top dress	200-350
Autumn-winter cereals	Top dress	150-300

Significant expansion of the root system and greater nutritional efficiency

Improved chemical and physical properties of the soil and reduced soil fatigue

Increased nutrient efficiency: conveyance, modulated absorption and transport

Increase in and nourishment of beneficial microbial flora
